

## Price Increase and Updated Terms Announcement

After much deliberation Quilter's Rule is announcing a Price increase. Our last price increase was in July of 2018. As you look over the price list, please note the following changes:

### New Product line – 1/8” acrylic Machine Quilting Tools for Very Low Shank Home Machines -

Quilter's Rule machine quilting tools are easy to understand, easy to use, and quite popular. Due to the design of some home machines, we have discovered they cannot use our 3/16” Home Machine Quilting Tools. So we will be introducing these 1/8” tools over the next couple of months.

In order to ease the confusion of the same tool being available in three different thicknesses, we are making a modification to our part numbers. The first part of the part number will signify the thickness of acrylic.

MQT – 1/4” acrylic – Safe on Longarms and High Shank Home Machines

HMQT – 3/16” acrylic – Safe on most Low Shank Home Machines

QR – 1/8” acrylic – For use with Very Low Shank Home Machines

We are also using color to signify the thickness. On both our price list as well as our tools the following colors will be associated with a thickness of acrylic:

Blue – 1/4” acrylic – Part numbers starting with MQT

Purple/Lavender – 3/16” acrylic – Part numbers starting HMQT

Green – 1/8” acrylic – Part Numbers starting with QR

In order to accommodate the new part number system, we had to rename certain parts:

<u>Old Part #</u>	<u>New Part #</u>	<u>Old Part #</u>	<u>New Part #</u>

QR-HEART	MQT-HEART		

In addition to our price increase, we have updated and revised our terms. The primary changes are with regard to FedEx Ground and shipment of our mats. Please look over these two areas carefully.

We are retiring some products. We the manufacturer of these products are quite willing to manufacture retired product for a specific order. Please contact us with the quantity you require and we will work up pricing for you.

The price increase will go into effect August 1<sup>st</sup>, 2020.

If we make custom product for you, be aware you can expect price fluxuations and availably issues in acrylic and other clear plastic sheet material as a result of Covid-19. Due to the unexpected and high demand of acrylic being used as cough and sneeze barriers in retail stores, sheet acrylic is in short supply. This is causing delays in delivery of acrylic to all users and is causing a spike in prices.

If you have any questions, please feel free to contact me.

Sincerely,
