Nested Mystifying Spider Web Template Instructions

The Spider Web is great for quick and easy block and border designs.

Overall size: 8" diameter

MQT-NMSW
1/4" thick

HMQT-NMSW
3/16" thick

If you are using the template(s) to quilt around (such as a long/mid-arm machine or high shank home machine), you must use 1/4" acrylic thickness. If you are on a low shank home machine, you must use 3/16" acrylic thickness. If you are on a machine that is stationary, you may find it helpful to put some type of agent such as Grip Stop Dots or spray adhesive on the templates. Before using, peel any film/paper masking from the templates so you can see through the clear plastic.

Note:

- 1) When using the template(s) to quilt around you must have a round, thick foot on your machine as well as a base (such as an extend-a-base or ruler base).
- 2) When using the template(s) to quilt around you will be stitching 1/2" larger (the width of your foot) or 1/4" wider if only using a portion of the template (the distance from your needle to the outer edge of your foot).
- 3) You may need to start with drawn/chalked guidelines or seam lines on your quilt.
