

Quilter's RuleTM Brings you the Captured Foot Rope Tool

MQT-CFR is ¼" thick. HMQT-CFR is ⅜" thick.

The Captured Foot Rope Tool is designed to allow machine quilters to quilt a variety of ropes or curves along a border. This tool will make 1", 2", 3", and 4" ropes.

If you are using the template to quilt around (such as long/mid-arm machine or high shank home machine), use the ¼" thick acrylic. If you are using a low shank home machine, use the ⅜" thick acrylic. If you are using a machine that is stationary, you may find it helpful to put some type of agent such as Grip Stop Dots or spray adhesive on the template. Before using the tool, peel any film or paper masking from the template in order to see through the clear plastic.

Basic Rope Design

- 1 Use a line drawn (or chalked) on the quilt or a seam to create a basic rope design. Use the etched base lines on the tool to align the chosen size rope over the drawn line or seam.
- 2 Starting at point A, stitch to point B. Needle down.
- 3 Slide the Captured Foot Rope Tool to align the foot on point C.
- 4 Stitch from point C to point B. Stitch from point B to point A (backstitching is shown in red). Backstitch to point D. Needle down.
- 5 Slide the Captured Foot Rope Tool to align the foot with point A.
- 6 To continue the design, repeat the above steps to the desired length.

Walking “S” Design

- 1 Use a line drawn (or chalked) on the quilt or a seam to create a walking “S” design. Use the etched base lines on the tool to align the chosen size “S” over the drawn line or seam.
- 2 Starting at point A, stitch to point B. Needle down.
- 3 Slide the Captured Foot Rope Tool to align the foot on point C.
- 4 Stitch from point C to point D. Needle down.
- 5 Slide the Captured Foot Rope Tool to align the foot with point A.
- 6 To continue the design, repeat the above steps to the desired length.

Ripple Rope Design

- 1 Use a line drawn (or chalked) on the quilt or a seam to create a ripple rope design.
- 2 Starting at point A, stitch to point B. Needle down.
- 3 Slide the Captured Foot Rope Tool sideways to align the foot on point A.
- 4 Stitch to point B. Needle down.
- 5 To continue the design, repeat the above steps to the desired length.

Double Ripple Rope Design

- 1 Use a line drawn (or chalked) on the quilt or a seam to create a double ripple design.
- 2 Starting at point A, stitch to point B. Needle down.
- 3 Slide the Captured Foot Rope Tool sideways to align the foot on point A.
- 4 Stitch to point B. Needle down.
- 5 Repeat the above steps to the desired length.
- 6 Align the Captured Foot Rope Tool curves to overlap the earlier ripple stitches.
- 7 Repeat steps 2, 3, and 4 to create the double ripple design.
- 8 To continue the design, repeat steps 2, 3, and 4 to the desired length.
